It amazes me how well she knows teenagers and exactly how we think and act and feel. She made wonderful suggestions that make sense and will work as long as parents stay calm and not point their fingers and make us do it. Thank you very much and I plan to share these suggestions with my mom—hopefully it will improve our relationship.

Thank you so much for your participation in Focus on the Family's first-ever Teachers in Focus Conference. The attendees were overwhelming in their positive comments. Several wrote that they planned to make specific changes in their classrooms to try to recognize the strengths of their students. The presentations were a total success—all that we had wanted them to be!

Many weeks have gone by since your teaching engagement at the Lifeway Conference Center at Glorietta, New Mexico, and I am still remembering the huge delight of every person in the room! The three presentations seemed like just a few minutes to those of us who soak up every word you say, learning while we laugh! ...Our customers feel that we provided something out of the ordinary when we brought you to our events.

I wanted to thank you again for being such an integral part of our Police Commanders Course faculty. The message you deliver provides our leadership folks with much needed tools as they face the challenges of leading a diverse law enforcement force at each of our installations across the Marine Corps. Our success in training and education is due in large part to your participation.

It's so rare to find speakers who can entertain an audience with humor, educate by appealing to their common sense, and put both of these together to drive home a point. Thanks again for a fantastic program.
